

Restart Book Summary (PDF) by Mihir Sharma

Ready to learn the most important takeaways from Restart in less than two minutes? Keep reading!

Why This Book Matters:

Restart is a factual analysis regarding the decline of Indians as a major gameplayer in the international political economy.

The Big Takeaways:

1. **The cultural diversity in India impedes the progress in the infrastructure and development sector.**
 1. If The lack of infrastructure and development creates hurdles for manufacturers because they do not have the means to focus on customer service.
2. **Finding a job is difficult in India because of economic downfall.**
 1. The industrial jobs are next to none in India, and the agriculture sector faces setbacks due to loss, driving many out of their jobs.
3. **Turning towards the private sector was an unsuccessful step.**

1. When the economy was getting weak, the shift towards the private sector was a reform which helped stabilize the trembling economy but not for long.
4. **Political leaders should focus on administrative reforms in order to improve economic conditions.**
 1. Natural resources are meant to be administered with great care so there is no unjust distribution of resources to the masses.
5. **The productivity of the agriculture sector should be improved by governmental reforms.**
 1. The farms are facing huge losses currently, but it is possible for them to regain their position in the economy if their productivity is improved.
